Viale Luigi Borri,231 - 21100 VARESE (VA) - Italy

Certified sites are listed in the attachment to this certificate

Bureau Veritas Certification Holding SAS - Italy Branch certifies that the Management System of the above organisation has been audited and found to be in accordance with the requirements of the management system standards detailed below

ISO 45001:2018

Scope of certification

Development, design, production, storage, marketing of equipment, IT solutions and electrical and electronic systems for control, protection, energy and data distribution in the following areas: residential (civil series, home automation, connected products, video door entry systems); industrial (cabinets, assembled and wired enclosures, electrical transformers, boxed and open power circuit breakers, time switches, uninterruptible power supplies UPS, measuring instruments for electrical quantities); tertiary (cable trunking and cable guiding systems, structured cabling, busbar trunking systems, solutions for energy efficiency.

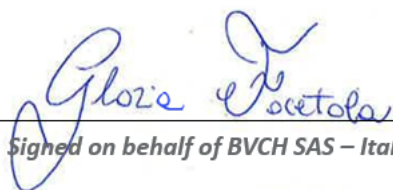

IAF 19, 14

Original Cycle Start Date:	29-December-2021
Expiry date of previous cycle:	28-December-2024
Certification / Recertification Audit date:	03-December-2024
Certification/Recertification Cycle Start date:	13-December-2024
Subject to the continued satisfactory operation of the organization's Management System, this certificate expires on:	28-December-2027

Certificate No. IT338329

Version: 3

Revision date: 04-May-2026

Signed on behalf of BVCH SAS – Italy Branch

02138

Membro degli Accordi di Mutuo Riconoscimento EA e IAF
Signatory of EA and IAF Mutual Recognition Agreements

Certification body address: Viale Monza, 347 - 20126 Milano (MI) Italy
Local office: Viale Monza, 347 - 20126 Milano (MI) Italy

Certified Sites

Site	Address	Scope
OPERATIVE SITE	Viale Luigi Borri, 231 - 21100 VARESE (VA) - Italy	Research, development and design of electrical and electronic equipment and electrical systems for control, protection, distribution of energy and data. Production of electrical equipment civil series, modular switches and time switches through the following processes: reception and storage of components and raw materials, mechanical processing of metal products, thermoplastic moulding, metal die-casting and blanking, water-based painting, galvanic and mechanical surface treatments, pad printing and laser cutting, automatic and manual assembly/testing, packaging and shipping of semi-finished and finished products and quality control. Prototyping of products and mold development and construction activities for mechanical processing and thermoplastic/die casting molding through the following processes: milling, wire and die-sinking EDM, grinding, laser and TIG welding, complementary machining in adjustment stage, hot treatments and 3D printing. Specific tests on materials and products through laboratories.
OPERATIVE UNIT	Via delle Lavagne, 17 - 21049 TRADATE (VA) - Italy	Development, design and production of electric equipment for energy control, protection and distribution: electrical assembled cabinets and enclosures, production of cabinets, enclosures and metal boxes, through the following processes: reception and storage of raw materials, manual and automatic sheet metal cutting and bending, manual and automatic welding, painting, assembly and packaging of cabinets and enclosures, enclosures wiring, enclosures testing, quality control, final product shipment.

Site	Address	Scope
OPERATIVE UNIT	Via Folzoni, 5 - 24052 AZZANO S. PAOLO (BG) - Italy	Development, design, production of electrical and electronic equipment for energy control, protection, and distribution: boxed and open power circuit breaker, through the following processes: receiving and storing components and raw materials, assembly and testing products, welding and mechanical processing semi-finished products, finishing and packaging, quality control, electrical and mechanical testing, semi-finished and finished products shipping.
OPERATIVE UNIT	Via Manara, 4 - 22038 ERBA (CO) - Italy	Development, design, production of equipment, IT solutions and electrical and electronic systems for energy and data control, protection and distribution: civil series, home automation, connected products, and video intercom. Production of boards and power modules for uninterruptible power supplies UPS, through the following processes: receiving and storing components and raw materials, automatic and manual assembly of boards and electronic products, ups, testing, digital printing, pad printing and lasering, packaging, quality control and products repair, specific product testing, semi-finished and finished product shipping.
OPERATIVE UNIT	Via Enzo Ferrari, 22 - 64020 CASTELLALTO (TE) - Italy	Development, design, production, storage, and distribution of electrical equipment for energy control, protection, and distribution: dry-type power transformers; through the following processes: receiving and storing components and raw materials, windings realization, assembly and testing, packaging, quality control, product-specific testing, accessories, semi-finished and finished products shipping.
